March is National Sleep Awareness Month! Sleep is an important part of every wellness routine. How much sleep do we need per night? Here are the guidelines from the National Sleep Foundation:

- Adults need 7-8 hours
- Children 6-13 years old need 9-11 hours
- Kids 3-5 years old need 10- 13 hours
- Babies - 2 years old need 11- 14 hours of sleep!
